CHARLES S. GLEED.

PREVIOUS introductory chapters of the justly celebrated Radges' Directory of the City of Topeka have been models of hilarious literature. They have been so excellent in that line that the time has naturally come when no man is funny enough to follow successfully in the funny procession. If the writer of this were to try it, being nothing if not serious, readers might admire his nerve but not his discretion. So this brief chapter will be a solemn one, giving some idea of Topeka as she is and as she will be, and incidentally clearing the way for a new series of brilliant chapters such as have been written in the past.

Topeka was of lowly birth. No bells were rung when she came into being, and no silver spoon was found in her mewling infant mouth. No god-parents vouched for her future, and no heritage of wealth or blood fell upon her. She came unheralded and unsung. The careless prairie breezes saw nothing in her to stop their wanderings, and the eager, blinking summer stars saw nothing new after she had been even weeks in existence. The Catfish Aristocracy in the Kaw river may have been interested or perhaps disturbed by rumors of unheard-of trouble on the shallow banks which for centuries uncounted had been the friendly limits of their lateral migrations. The bumptious June bug and the penetrating woodpecker by day; the cogitating owl and the designing coyote by night, may have discovered trifling signs of an invasion of their ancient domain. But beyond this there was no stir, no joy, no sorrow, no emotion when the new town fell like a fluttering leaf from the sky of civilization and lost itself in the tall grass of the Kansas prairies. The Lawrence real estate ring could not make room for Colonel Holliday and others, so they came further into the wilderness and started a town-lot mill of their own. Hard trials and great tribulations followed them and camped also on their chosen town site. The whooping cough, the croup, the measles and the mumps of urban infancy all came along in due time. Struggles to secure the capital; wild imaginings and undreamed-of realizations of pontoon bridges, blacksmith shops and hotels; the rise and fall of newspapers born too soon and not soon enough dead; the rending spasms of political contention; the bloody days of border warfare; the machinations of hostile red men and still more hostile white men; the griefs of newly-founded industries; the fading away of bridge works and rolling mills and banks and other things even less substantial; the failure of crops and the success of drouth and grasshoppers; the projection of railway lines—all these things came in due time, in Indian file or many abreast, and put gray hairs in raven heads and dark

lines in fair faces and—a city where no city had been. Ten, twenty, thirty, forty thousand—so the people increased, until at last fifty thousand souls and more conspire to break up the primeval monotony, the illicit whiskey merchant, the taxpayer and other objectionable features. In other words, Topeka is now here, fifty or sixty thousand strong, the prosperous, handsome, happy, progressive metropolis of Kansas with her million and a half of people and her millions of accumulated wealth. She is here and here to stay, and when she reaches another quarter of a century in age she will also have reached a quarter of a million in population. This must be so, for no man in Topeka dares to deny it.

Topeka is not an ordinary city. She was a precocious child, and she has a remarkable maturity. She made her streets as wide as Boston common, and now they are nearly as beautiful. She began with a vaulting ambition and she still vaults. She began by claiming all the Government land in sight and she still wants the earth. She began belligerently and she still shakes her gory locks at all her hated rivals. She was born hungry and she still cries, Twist like, for more. She is hard to describe except by glittering generalities or by close comparisons, showing wherein she is like and unlike other cities. Thus: Her streets are broad and horizontal as in Washington; not narrow and perpendicular as in Kansas City. Her pavements are, like the Washington pavements, worth their weight in gold, though they will not be paid for at that rate as was the case in Washington under Boss Shepard's rule. Her park system she has always with her by the sides of all the streets; not out of reach as in Philadelphia, St. Louis, and San Francisco. Her sewers are under ground instead of above ground as in New Orleans. Her people love peace if they have to fight for it—unlike the peace lovers of Philadelphia who cry peace, peace, when the mosquitos from Jersey will give them none. Her people are fond of their homes, unlike the migratory multitudes of New York, who to-day are and to-morrow are cast into seaside hotels where is weeping and wailing and gnashing of teeth. She is not a dead-level town like Wichita except as to the heads of her citizens. She is a city of churches like Brooklyn, and when Brooklynites mockingly suggests that Topeka has no navy yard she points with pride to her brick yards and to that bottomless shaft of night known as the coal hole. She is a railway center like Indianapolis and a flour-grinding town like Minneapolis, being second only to that city in this respect. She puts out cars and engines from the great Santa Fe shops as at Pullman, Dayton, St. Charles, Schenectady, Detroit and Taunton. She has as much patriotism as Boston but she gives her patriots more room and less rum. With a prohibitory law absolutely supreme and with sidewalks twenty feet wide, no Topeka patriot ever has difficulty in finding his way home nights. Like Chicago she has the world's fair, but they neither chew gum nor smoke cigarettes. Her young men may be reckless about the ten commandments generally like the boys of Oshkosh, Kalamazoo and Hoboken, but they are never guilty of being dudes, and they do not get so low as to

patronize the Louisiana lottery. She is not so short of water as Denver, nor has she so much as Galveston, San Diego, the Puget Sound cities and Duluth. Her history is not snarled up with that of George Francis Train as is Omaha's, nor has she ever had such blooming idiots as those who jump from Brooklyn bridge and swim Niagara in a barrel. And, speaking of barrels, her city councilmen in most corrupt days have never gone so far as the New York aldermen or the Albany boodlers. She is unlike any other city in the world in not having an editor whose opinions may be purchased for money. But her lawyers will not surrender theirs for anything else. Her preachers are never charged (as the New York *World* charges Talmage) with being "a fraud or worse." Her physicians know a thing or two about their business and are conscientious in the pursuit of it, unlike certain Leavenworth physicians who prescribe whisky q. s. for snake-bite prior to the bite, and for all other symptoms of fatty degeneration of the desire to obey the law. Her teachers are indefatigable in their efforts to teach the young idea how to shoot, but not in the way it is taught in Louisville and other Kentucky towns, where to shoot is god-like, to miss is vile. She is the seat of government, but unlike most such seats the government does not seem to sit on her. She manufactures flour, sugar, cotton cloth, artificial limbs, iron castings, farm implements, false teeth, wagons and carriages, starch, candidates for office, steam engines, cars, notaries public, blank books, tents, confectionery, legal opinions, railroad passes, legal blanks and happy families—which cannot be said of the Texas towns whose chief products are corn, cotton and—cane. Her street railway lines are strangely unlike those of Eastern cities, in that they run to every man's door, have cars enough to do the business without making passengers sit in each other's laps or stand on each other's toes, move at a high rate of speed and employ electricity as a motive power. Her banks are unlike a certain bank in Providence the cashier of which hangs a sign over his desk, "Money loaned to all except those who need it." Her board of trade is a good one, though it does not invade the sanctity of the fireside, run the Sunday schools, authorize marriage and decree divorce, fix the price of homes and exercise censorship over public prints as in Wichita. Her merchants are honest, industrious and prosperous; but if they had half the audacity (otherwise known as cheek) of the Kansas City merchants, they would shut Kansas City out of the Kansas trade. Most of the Kansas railroads live in Kansas and would be glad to be compelled by the force of commissioners and other circumstances to favor Kansas jobbers. Her schools teach as much as Boston schools and her churches are as liberal. Her men are brave without whiskey, her women are beautiful and good even if they do vote regularly, and her children have redder cheeks and brighter eyes than the children of Nova Scotia. Good society is abundant, and no four hundred have it in trust for all the rest as in New York. In short, if there is any ideal city in the union Topeka is that city, and she hereby "admits it herself."

But it should not be supposed that Topeka is either perfect or thinks she is.

She needs much and knows it. She needs people to manufacture a thousand sorts of articles now made elsewhere. She needs insurance companies to do the business for five millions of people. She needs an improvement of the magnificent water power with which nature has provided her. She needs ten miles of new pavements and thirty miles of new electric railway equipment. She needs more wholesale merchants, more river bridges, more court-house room, more water service, more railway shops, more machine shops, more clubs, more libraries—at least more books—more churches, more advertising, more parks, more drives, more deceased croakers and kickers, more self confidence and more courage. She needs a better appreciation of the fact that she can't be both a village and a city. She needs to understand a little better than she now does that enemies within are always more dangerous than enemies without. She needs a downward exodus of her few but able-bodied dead men who do nothing but disorganize, depreciate and discourage. With all these added to her, (or subtracted, as the case may be,) she will be far more than the present beautiful and lovable Topeka; she will be the ideal Topeka.

This ideal Topeka—all pride, complacency and boasting aside—is a hundred times better than the present Topeka, and is sure to come as the natural result of that which now is. The picture of this coming Topeka is indeed a bright one—such a picture as is often painted for Kansas eyes on the summer sky at sunset—a picture full of warmth and light and beauty, in which appear all the fine forms, tints and proportions which conspire for glory. Material prosperity appears everywhere in fullest measure. The artistic spirit of sweet, pellucid Greece and the sturdy vigor of the rugged North are here married in the most perfect forms of architecture. Every structure is a work of art—which means that the people of that ideal time could hardly recognize the present city. Beauty is omnipresent. The streets are undulating ribbons of asphaltum, brick and granite, clean swept and bright, with rich, deep borders of the bluest grass and the finest trees. Under these trees appear long arcades having well-defined walls, with verdure richly clad. Parks and lawns give space for exquisite flowers, and joyous children with their pets and playthings are scattered over nature's carpet. Sweet smells and sweet sounds fill the air, and no unsightly thing appears. Even the railway tracks and stations, grain elevators, mills, factories, warehouses, and all such commercial establishments are of their kind perfect—therefore beautiful. Stone arch bridges span the streams, and the dredged and dammed river bears on its wide bosom a graceful fleet of little ships. And better yet than things material in this picture are the people and their institutions. A quarter of a million inhabitants do not crowd each other. Schools and churches, courts and chronicles, fraternities and charities, libraries and gymnasiums—all the fair fruits of civilization are present in full numbers and strength. Health is everywhere, temperance, industry and true piety belong to all, peace and prosperity go hand in hand, and "every day is better than the last."

STREET AND AVENUE GUIDE.

[COPYRIGHT, 1890, BY SAM. RADGES.]

THE houses throughout the city are numbered in accordance with what is known as the Philadelphia or decimal system, the base or dividing line for streets running north and south being Kansas avenue, the principal business thoroughfare, and First avenue for all streets running east and west.

Under this system, one hundred numbers are set apart for the houses between every two streets in the city—except Huntoon and King streets, which run parallel with the numerically-named streets. Commencing at First avenue with 100, numbers increase, with the odd figures on the west side, to 135, where Second street is reached; here 200 commences, and so on, increasing one hundred to the block, to the city limits. North of First avenue the numbers also commence at 100; at Crane street, 200, and on the north bank of the Kansas river at 500, allowing the intervening two hundred for the bend in the river in the eastern portion of the city, where there are streets north of Crane street, south of the river. At Kansas avenue, all streets running at right angles with it are divided east and west, the even numbers being on the north side of the streets. Commencing at 100 on the first twenty-five feet of ground fronting south, regardless as to the frontage of the building located thereon, the numbers increase two for each twenty-five feet of space in the block, 122 being reached at the intersection of the next street. Two hundred then commences on the opposite corner, and increases in like manner for the next block, and so on, increasing one hundred for each block, Topeka avenue being reached at 500 on the west, and the same number on the east side of the city at Jefferson street.

The simplicity of this system enables every person to readily locate any address, and it at the same time furnishes an idea of the distance to the locality. If the desired number is 320, on any street running east or west, it is on the third block from Kansas avenue, No. 720 on the seventh block, and so on; the hundreds designating the number of streets distant from Kansas avenue, and the tens and units the exact house in the block.

BELL SIGNALS.

Fire alarms are sounded upon the tower bell at Fire Department headquarters by striking the number of the signal station nearest to the fire, in the following manner: If for box 4, four distinct strokes and repeated; if for No. 13, one stroke, a short pause, then three strokes, and repeated, thus: I–III, I–III, etc.; and if for 22, II–II, II–II, etc; 22 is sounded for all fires within the district bounded by Fourth, Ninth, Harrison and Monroe streets. Ten strokes, and repeated, followed by the number of the signal station nearest to the fire, is the second alarm, for a serious fire. Three strokes, followed by twelve, and repeated, thus: 3–12, 3–12, etc., is the general alarm for a very threatening and dangerous fire. This calls the entire fire department and a large detail from the police department. Two strokes, slowly, indicates "fire out."

For fires south of the river, one long whistle.
For fires north of the river, three whistles.

CITY OF POTWIN PLACE.

The city of Potwin Place is located west of the city and south of the Kansas river. It is practically a part of Topeka, but is incorporated as a city of the third class. Its citizens are some of the most prominent business and professional men of Topeka, who erected handsome suburban residences in a desirable location, and in order to avail themselves of school facilities and internal improvements that the city could not supply them, incorporated the addition as an independent corporation. Since the enrollment of Potwin Place was made for this Directory the city council passed an ordinance providing for house numbers to conform with the parent city. So far as it was possible, the numbers given in this work have been changed to the new numbers.

SHAWNEE COUNTY.

[A complete directory of the tax payers will be found following the business directory.]

SHAWNEE COUNTY is situated in the northeastern portion of the State, being in the third tier of counties south from Nebraska, and the same tier west from the Missouri State line.

It was organized in 1855, while Kansas was yet a Territory. It has an area of 558 square miles, and ranks as the first county in the State, both in population and assessed valuation. The general surface of the county is a rolling prairie, with a few high hills and bluffs. The bottom lands of the Kansas and Wakarusa rivers are from one to three miles in width, and these, together with the valleys of the creeks, comprise 31 per cent. of the county area. The total value of public-school property in the county is over a half million dollars, divided among ninety-four organized school districts, and about the same amount is represented by private educational institutions.

Elections are held on the Tuesday following the first Monday in November.

STATE GOVERNMENT OF KANSAS.

THE Territory of Kansas remained unorganized and almost unpeopled until the 30th of May, 1854, when President Pierce signed the famous Kansas-Nebraska bill, organizing the Territories of Kansas and Nebraska. In July, 1859, the constitutional convention met in Wyandotte, and on the 29th of July signed the "Wyandotte Constitution." This was ratified by the people in October of the same year, but it was not, however, until January 29, 1861, that President Buchanan signed the act of Congress admitting Kansas under the Wyandotte constitution, and then her existence as a State legally began.

The State of Kansas includes an area of 82,080 square miles, or 52,531,200 acres, and is larger than the whole of the New England States and Delaware and Maryland added; equal to North and South Carolina combined, and is twice as large as Ohio. According to the United States census taken in 1880, the population was 995,355; in 1885 the official State census showed 1,268,530; and the estimated population at this time (May, 1890) is not less than 1,850,000.

Permanent school fund, $5,515,389.86.

Total tax levy for State purposes, $4\frac{2}{10}$ mills.

Valuation of all property as fixed by State board, $360,815,073.49.

Amount to be raised on this valuation, $1,515.423.27.

Amount raised by taxation for the fiscal year, ending June 30, 1889, about $1,439,000.

Municipal debt amounted to $31,107,646, June 30, 1888.

COUNTIES OF KANSAS.

ORIGIN OF THEIR NAMES AND DATE OF ORGANIZATION.

Allen. Organized in 1855. County seat, Iola. Named in honor of Wm. Allen, of Ohio, who was for many years a member of the United States Senate from that commonwealth, and also its Governor. He favored the doctrine of popular sovereignty on the opening of the Territory of Kansas to settlement, and the most ultra measures for the perpetuation of slavery.

Anderson. Organized in 1855. County seat, Garnett. Received its name from Jos. C. Anderson, of Missouri, who was a member of the first Kansas Territorial Legislature, and Speaker *pro tem.* of the House of Representatives. He figured in the "Wakarusa war" in December, 1855, and his name appears in connection with a proposition to march under the "black flag" to Lawrence.

Atchison. Organized in 1855. County seat, Atchison. Named for David R. Atchison, a Senator from Missouri, and President of the United States Senate at the date of the passage of the act for the organization of the Territory of Kansas. He was a pro-slavery Democrat, and zealous partisan leader in the discussions and movements affecting the interests of slavery and its attempted establishment in the new State to be created. He was conspicuous among the mob at the sacking of Lawrence, on the 21st of May, 1856.

Barber. Organized in 1873. County seat, Medicine Lodge. In honor of Thomas W. Barber, a Free-State settler of Douglas county, who was killed in consequence of the political troubles, near Lawrence, December 6, 1855. (The county was originally named in the statute as "Barbour," but was corrected by the Legislature in 1883.)

Barton. Organized in 1872. County seat, Great Bend. In honor of Miss Clara Barton, of Massachusetts, who won great distinction during the war for the Union by her remarkably effective philanthropic career in the sanitary department of the army.

Bourbon. Organized in 1855. County seat, Fort Scott. Received its name from Bourbon county, Kentucky, the latter having been one of the nine counties organized in 1785 by the Virginia Legislature, before Kentucky became an independent State. It was so called as a compliment to the Bourbon dynasty of France, a prince of that family (then on the throne) having rendered the American colonies important aid in men and money in their great struggle for independence. The legend, however, of the Kansas Legislature is, that Col.

Samuel A. Williams, a member of the House from Fort Scott in 1855, insisted that at least so much was due to the name of the beverage which the party in power drew so largely from for its courage and zeal in pushing its measures in Kansas. He was ~~a colonel in the rebel army, and~~ died at his old home, Fort Scott, in ~~1873.~~ August 1873.

Brown. Organized in 1855. County seat, Hiawatha. After Albert G. Browne, of Mississippi, who had been Senator and Member of the House of Representatives from that State, was United States Senator at the date of the act organizing Kansas Territory, was re-elected for six years in 1859, but withdrew with Jefferson Davis on the attempted secession of the Southern States. The name is properly spelled with an *e* in the original statute, but on the county seal the *e* was left off—accidentally, probably. All later statutes present the name without the final *e*.

Butler. Organized in 1855. County seat, Eldorado. For Andrew P. Butler, who was United States Senator from South Carolina, from 1846 to 1857. He was a bitter partisan, and a zealous advocate of the right of the South to introduce slavery into the Territory of Kansas.

Chase. Organized in 1859. County seat, Cottonwood Falls. Created out out of portions of Wise and Butler counties, and named in honor of Salmon P. Chase, successively Governor of Ohio, United States Senator, Secretary of the Treasury, and Chief Justice of the Supreme Court. In the Senate he was earnest in his opposition to the extension of slavery into Kansas.

Chautauqua. Organized in 1875. County seat, Sedan. Created out of a portion of what was first Godfrey county, named after "Bill Godfrey," a noted trader among the Osages; then Howard county, in honor of Major General O. O. Howard, for his efforts in behalf of the colored race. Chautauqua county, New York, was the former home of Hon. Edward Jacquins, a member of the Kansas Legislature in 1875 from Howard county, who introduced the bill which divided Howard into Chautauqua and Elk; hence from his native place this county derives its name. The name originally given (in 1855) to Howard county was "Godfroy," and the name was changed to "Seward" in 1861. In 1867 the Legislature, ignoring former names, created the county of "Howard," which embraced all the territory of Seward and a five-mile strip additional on the west. M. W.

Cherokee. Organized in 1866. County seat, Columbus. First named McGee in 1855, for [illegible]. McGee, who was a member of the House in the first Territorial Legislature, and held to the doctrine that the term "inhabitant," as employed in the organic act creating the Territory of Kansas, was meant to designate any person who might reside in, or have an existence in, or happened to be in Kansas Territory on election day, or during the sitting of a Legislature. So he voted in Kansas, helped to make laws for Kansas, but never lived in Kansas, always persistently adhering to his citizenship of Missouri. In 1866 the name Cherokee was adopted, from the fact that a large portion of the "Cherokee Neutral Lands," reservation of that tribe of Indians, was included in the geographical area of the county.

Cheyenne. Boundaries defined in 1873. Organized April 1st, 1886. County seat, Bird City. Named after the celebrated Indian tribe of that name.

Clay. Organized in 1866. County seat, C[illegible]enter. Named in honor of the distinguished Kentucky statesman, Henry [illegible]ay, who was chosen United States Senator in 1806. He afterward served in both houses, and was in public

life most of the time during a period of forty-six years. He had been minister to England and France, and candidate for President in opposition to Polk. He died in Washington in 1852.

Clark. Organized in 1885. County seat, Ashland. Originally and correctly Clarke, with a final *e*, in memory of Charles F. Clarke, captain and Adjutant General, United States Volunteers, who died at Memphis, December 10, 1862. The Legislature of 1873 dropped the final *e* under a misapprehension, as the legend goes, that the county was named for another, and, to many of them, an obnoxious individual, whose name was spelled with an *e*.

Cloud. Organized as "Shirley," in 1860. County seat, Concordia. The county was originally named after Governor William Shirley, Colonial Governor of Massachusetts from 1741 to 1756. The name was changed to Cloud in 1867, in honor of Colonel William F. Cloud, of the Second Regiment, Kansas Volunteers. This change was made at the suggestion of Hon. J. B. Rupe, then representing the county in the Legislature.

Coffey. Organized in 1859. County seat, Burlington. Named in honor of Colonel A. M. Coffey, a member of the first Territorial Legislative Council. Colonel Coffey died at Dodge City in 1879.

Comanche. Organized in 1885. County seat, Coldwater. Named from the Indian tribe of that name. (The county was first organized in the fall of 1873, under a general law then in force, and was represented in the Legislature under that organization in 1874; but that organization was held fraudulent and void.)

Cowley. Organized in 1870. County seat, Winfield. Named in honor of Matthew Cowley, fiirst lieutenant of Company I, Ninth Kansas Cavalry, who died in the service, October 7, 1864, at Little Rock, Arkansas. (The county was originally named "Hunter.") (Bogus Laws of 1855, page 208.) The name was changed to "Cowley" in 1867. (ch. 33, §§ 1 & 7.)

Crawford. Organized in 1867. County seat, Girard. This county was by an act of the Legislature of 1876 created out of the northern half of Cherokee, which prior to that date reached to Bourbon. It was named in honor of Samuel J. Crawford, who was elected Governor in 1864, and served nearly four years. The Legislature named the county in obedience to a resolution passed in convention held to petition for its organization. Governor Crawford resigned in October, 1868, to become Colonel of the Nineteenth Kansas Infantry, specially raised for the Indian war of 1868–9. He was Colonel of the Second Regiment Colored Volunteer Infantry, during the war for the Union. Ex-Governor Crawford is now State Agent at Washington; his residence is Topeka.

Davis—see GEARY.

Decatur. Organized in 1879. County seat, Oberlin. Boundaries defined by legislative enactment in 1873. Named in honor of Commodore Stephen Decatur, a distinguished American naval officer. He fell in a duel with Commodore Barron, U. S. N., in 1808.

Dickinson. Organized in 1857. County seat, Abilene. In honor of Daniel S. Dickinson, who was a Senator from the State of New York. In 1847 he introduced, in the United States Senate, resolutions respecting territorial government embodying the doctrine of popular sovereignty, afterwards incorporated in the bill for the organization of Kansas Territory. He died in 1866.

Doniphan. Organized in 1855. County seat, Troy. In honor of Colonel A. W. Doniphan, of Missouri. He commanded a regiment of cavalry during the Mexican war, marching across the plains, and taking a very prominent part in the conquest of New Mexico. He was a zealous partisan in the effort made to extend slavery into Kansas.

Douglas. Organized in 1855. County seat, Lawrence. In honor of Stephen A. Douglas, United States Senator from Illinois, and a candidate for the presidency in 1860. It was in this county that the first Legislature located the capital of the Territory. As a Senator, Douglas, in 1854, took a leading part in securing the adoption of the "popular sovereignty" principle in the act organizing Kansas Territory, which gave the particular form of the issue involved in the Kansas struggle.

Ellsworth. Organized in 1867. County seat, Ellsworth. Named after Fort Ellsworth, a military post built on the bank of the Smoky Hill, in 1864. This fort was so called by General Curtis in honor of the officer who constructed it, Allen Ellsworth, second lieutenant of Company H, Seventh Iowa Cavalry. When the name was adopted for the county it was supposed that the fort had been named in memory of Colonel E. E. Ellsworth, of national fame.

Garfield. Organized in 1887. County seat, Ravanna. Boundaries were defined in 1873. Named in honor of President James A. Garfield.

Geary. Organized in 1855 as "Davis" county, which name was given for Jefferson Davis—a graduate of West Point—officer of the U. S. army—United States Senator, and Secretary of War—and who afterward turned traitor to his government, and became President of the so-called Southern Confederacy. The Legislature changed the name to Geary, in 1889, in honor of John W. Geary, who was Territorial Governor of Kansas from 1856 until March, 1857. County seat, Junction City.

Gove. Organized September 2, 1886. County seat, Gove City. In honor of Captain Grenville L. Gove, Eleventh Kansas Cavalry, who died in 1864.

Grant. Organized in 1888. County seat, Ulysses. Named in honor of President Ulysses S. Grant.

Gray. Organized in 1887. County seat, Cimarron. Named in honor of Alfred Gray, late Secretary of the State Board of Agriculture.

Greeley. Organized in 1888. County seat, Tribune. Named in honor of the founder of the New York *Tribune*.

Greenwood. Organized in 1862. County seat, Eureka. This county received its name as a compliment to Alfred B. Greenwood, who, about the time of the organization of the Territory, was Commissioner of Indian Affairs. He negotiated treaties on the part of the United States with the Sac and Fox and other tribes in Southern Kansas.

Hamilton. Organized January 29, 1886. County seat, Syracuse. In honor of General Alexander Hamilton, the great American statesman; he was killed in a duel with Aaron Burr, July 11, 1804.

Harper. Organized in 1873. County seat, Anthony. The organization of this county was one of the most glaring frauds ever perpetrated in the State. Attorney General Williams, in his official report, says: "It is not pretended that Harper county ever had an inhabitant." The form of its organization was legal on paper, and that is all. In 1878 the organization became legal. The county was named in memory of Marion Harper, first sergeant of Company E, Second Regiment of Kansas Cavalry. He was mortally wounded at Waldron, Arkansas, December 29, 1863, and died the following day. His comrades say he took his death coolly. When brought in wounded, he proposed a wager that in so many hours he would be dead; the bet was taken, and Marion Harper won.

Harvey. Organized in 1872. County seat, Newton. Named for James M. Harvey, captain of Company G, Tenth Regiment of Kansas Infantry, and Governor of the State from 1869 to 1873. In January, 1874, he was elected United States Senator to fill an unexpired term ending in 1877.

Haskell. Organized in 1887. County seat, Santa Fe. Named in honor of Dudley C. Haskell, of Lawrence, who died while serving the State as Congressman, 16th December 1883.

Hodgeman. Organized in 1879. County seat, Jetmore. Named in honor of Amos Hodgman, captain of Company H, Seventh Kansas Cavalry. He died October 16, 1863, near Oxford, Mississippi, of wounds received in an action at Wyatt, Mississippi, October 10, 1863. The name should be spelled *Hodgman*, without the *e*—it was so spelled in the original statute of 1868, which created the county, but by accident—probably—in the statute which defined its boundaries in 1873, the *e* was inserted. Of course it is legally *Hodgeman*, and must remain orthographically incorrect until changed by legislative enactment.

Jackson. Organized in 1857. County seat, Holton. Originally Calhoun, in honor of John C. Calhoun, of South Carolina; changed in 1859 to Jackson, after Andrew Jackson, seventh President of the United States.

of the declaration of independence. It came very near being called *Sauterelle*, (French for grasshopper,) Doctor Wm. H. Tebbs, the local member in the first Legislature, having strenuously contended for it. The legend goes that the doctor accepted his defeat with good grace, and supplied the customary beverage then used when anything notable occurred in or about that remarkable body.

Jewell. Organized in 1870. County seat, Mankato. Named in memory of Lieutenant Lewis R. Jewell, Sixth Kansas Cavalry, who died November 30, 1862, of wounds received at the battle of Cane Hill, Arkansas, November 28, 1862.

Johnson. Organized in 1855. County seat, Olathe. For Rev. Thomas Johnson, a Methodist minister, who in 1829 established a mission among the Shawnee Indians, about eight miles southwest of Kansas City. Mr. Johnson took the Pro-Slavery side of politics, and was a member of the first Territorial Council. He was, when the war came on, a faithful Union man. He then lived in Missouri, and becoming obnoxious to the bushwhackers, his house was sacked by them, and he was shot and killed, in January, 1865.

Kearny. Organized March 28, 1888. County seat, Hartland. Named after General Kearny, who commanded United States troops in the West during the Indian troubles.

Kingman. Organized in 1874. County seat, Kingman. Named in honor of Samuel A. Kingman, who was then Chief Justice of Kansas. Judge Kingman resides in Topeka.

Kiowa. Organized March 23, 1886. County seat, Greensburg. Named after the tribe of Indians bearing that name.

Labette. Legally organized in 1867. County seat, Oswego. Originally part of Dorn county, after ~~Colonel Earl Van Dorn, of the regular army~~. He was also a rebel officer, ~~but~~ changed ~~from Dorn~~ to Neosho in 1861, after name of the principal river in Southern Kansas. Labette county has a peculiar history, not generally known, or at least not found in the books. Prior to the summer of 1866 all that part (and being the south half) of Neosho county, now comprising Labette, was sparsely populated. In the spring of 1866 there was a great rush of immigration to that locality, and the new settlers proceeded to organize a government of their own. They gave the name "Labette," (then written La Bette,) and called a convention, nominated a full set of county officers, and a Representative to the State Legislature, and elected them at the November election, and started a county government—for all which no authority of law whatever existed. The "representative" so elected was Charles H. Bent, who reported at Topeka with a petition "signed by John G. Rice and 224 other citizens of Labette county," asking that Mr. Bent be admitted to a seat in the House. He was admitted, and afterward introduced a bill to "organize and define the boundaries of Labette county," which passed, and was approved the 7th of February, 1867. The word La Bette is French, and signifies "the beet."

Lane. Organized June 3, 1886. Boundaries defined in 1873. County seat, Dighton. In honor of Senator "Jim" Lane, of Kansas fame.

Leavenworth. Organized in 1855. County seat, Leavenworth. From Fort Leavenworth, the most important military post in the West. It was established in 1827, and was named after General Leavenworth, of the United States Army.

In 1873 the county was represented by one N. H. Billings, a man of overweening vanity, a crank on the subject of talking, who in consequence of his peculiarities became a sort of butt of the Legislature. A member of the Senate at the time—one of Kansas' brightest and wittiest of men—had the name of Norton changed to Billings, in two lines hidden in a paragraph of a bill fixing the boundaries of certain counties. The next Legislature restored the name of Norton.

Osage. Organized as Weller county in 1855; name changed to Osage in 1859. Originally named for John B. Real Estate Loans,

116 WEST SIXTH AVE., JONES BUILDING,

TOPEKA, KANSAS.

We ask the attention of all desiring to borrow money on good Real Estate security in Eastern Kansas to the following advantages which we offer:

1. Prompt personal attention to your applications.

2. Ready money, if security is satisfactory and title perfect.

We have never yet kept a borrower waiting a day for money.

3. **YOUR INTEREST IS PAID AT OUR OFFICE, WITH NO CHARGE FOR EXCHANGE.**

4. A saving of about 50 cents expense for recording mortgage—our mortgage, while covering the whole ground, being a shorter form than the long forms in common use.

5. Lowest possible rates of interest, with every courtesy and accommodation to borrower consistent with perfect security to the lender.

6. Unless otherwise instructed, when mortgage is paid we always see that it is properly released of record, and pay for recording the release according to the laws of the State instead of compelling its payment by the mortgagor.

Lastly: Fair and just dealing with all, recognizing that borrowers have the same rights as persons who have money to lend, not forgetting that we best serve our own interests by faithfully serving as far as we can and carefully guarding the interests of our patrons—their confidence and good-will being our best capital.

We thank you for your past confidence and patronage, and should you or your friends have further wants in our line, we would be pleased to serve you.

Very truly yours,

T. E. BOWMAN & CO.

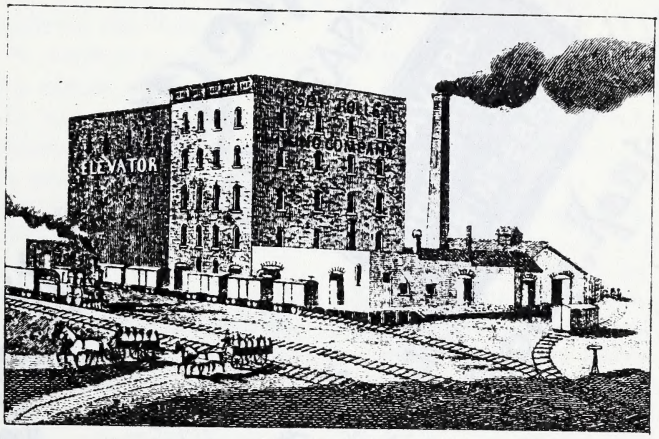
CROSBY

CAPACITY OF MILL, 800 BARRELS.



CAPACITY OF ELEVATOR, 180,000 Bushels Wheat.

Manufacturers of the Well-Known Brands of Flour.

We claim that our Flour contains a larger percentage of gluten than most winter-wheat Flour, as proven by chemical analysis. The larger the percentage of gluten, the more bread can be made from a given quantity of flour.

THE FOLLOWING IS ONE OF NUMEROUS TESTIMONIALS:

W. A. Thomas, of Alyth, Scotland, gives Topeka Flour quite a puff in an American milling paper. After saying they have better wheat and greater skill in making flour in Hungary than anywhere else, he adds: "The nearest flour to Hungarian I have seen from the United States is this season's A. A. A., from Crosby Mill Company, Topeka, Kansas."
